JOINING ANGORA YARN

When you have to join a new ball of yarn, or replace a knot, thin out the two ends slightly with the thumb nail and forefinger. With a darning needle, thread one thinned end into the other to make a smooth join. When working with this slightly heavier yarn, pull it just a little more tightly onto right hand needle to preserve the uniformity of the stitches.

Owing to the numerous processes through which yarn has to pass, it is impossible to avoid occasional knots, so—**Remember** for a neat finish and comfort to the wearer, **never** knit a knot into your garment!—Join angora yarns in this easy way.

LACE AND CABLE PATTERN (30 sts.):—
1st row: *W.o.n. (to make an eyelet). S1.1. K1. p.s.s.o. P2. Slip next 3 sts. onto the spare needle, letting this needle fall to back of work. Knit next 3 sts. Bring the 3 sts. forward and knit them. P2. K2tog. w.r.n.* From * to * equals 14 sts. P2, then repeat from * to * once, thus making the 30 sts.
2nd row: P2. K2. P6. (K2. P2)twice. K2. P6. K2. P2. (30 sts.).
3rd row: *K1. Wl.fwd. S1.1. K1. p.s.s.o. P1. K6. P1. K2tog. Wl.fwd. K1.* P2, then repeat from * to * once.

THE WASHING OF WOOLLIES

Well knitted woollies are worthy of careful treatment. They will give long service and keep their shape and softness if this simple routine is followed:—

WASHING

Dissolve completely a little soap, flakes or powder, cold water soap or good detergent in a small quantity of hot water.

Add cold water until the soap suds are only lukewarm (too hot for the elbow is altogether too hot for woollies). Detergents require much cooler water.

Place the garment in the suds and squeeze gently. Do not rub or leave to soak.

When the garment is clean, squeeze as much water out as possible but do not wring or twist.

Keep the garment supported by the hands whenever it is removed from the water.

RINSING

Rinse at least twice in clean water, no warmer than the washing suds. *Every trace of soap must be removed.*

Be sure to add a few drops of white vinegar to the final rinse water. This is most important, particularly when other shades are knitted *with* WHITE.

DRYING

Never let woollies lie wet. Remove all moisture at once by rolling in a thick towel.

Ease the garment back to its original size and shape. Dry on a flat surface away from excessive heat.

Do not hang up—Dry flat.

NOTE:

Most washing troubles are caused by:—TOO HOT WATER, TOO MUCH SOAP, TOO MUCH RUBBING, TOO LITTLE RINSING.

PATONISED WOOLS

To ensure the fullest benefit of increased wearing properties, it is recommended that the foregoing washing routine be followed for garments knitted from Patonised Shrink-resist wools.

CHECK TENSION

The garments in this book are worked to the exact tension given. They are closely knitted to ensure a firm fabric that will wear better and keep its shape longer than a loosely knitted fabric. **Check your tension.** Before beginning your garment take the wool and needles specified. Cast on 20 stitches. Work 20 rows stocking stitch. Lay work flat on a table and place a ruler across the stitches. Count the number of stitches to one inch and compare with the tension given in the instructions. All given tension in Beehive instructions is measured over stocking stitch. If your tension is too loose try a size smaller needle. If your tension is too tight try a size larger needle.

Be sure to work to exact tension given if you want your garment to work to correct size.

WOOLS TO USE

Every instruction in this book has been carefully prepared with the wool recommended; for perfect satisfaction be sure to use only the wool specified.

When purchasing the wool, be sure to buy enough *in one dye lot* to complete the garment chosen and avoid trouble in having to match the shade later.

TO BLOCK AND PRESS

Place all knitted pieces on a pad, right side down, measure and pin them to size and shape using rustless pins. Cover with a damp cloth. Holding a hot iron close enough to the cloth to draw steam, smooth over each piece, except for the ribbed bands. Do not press the iron on the work at any time. Remove cloth and leave pieces to dry.
